

Comets®

UNIQUE "FINGER FIT"

Comets® are the first reusable earplug to feature an innovative "finger fit" that allows the user to easily guide the earplug directly into their ear canal, providing a custom fit.

COMFORT AND CONVENIENCE

Reusable earplugs don't need to be uncomfortable. Comets® feature a triple flange design that provides maximum comfort, even when worn for a full shift and the user friendly finger pocket helps workers insert the plugs correctly. A wide variety of workers' finger types can easily grasp the plugs, even in extreme hot, humid work environments.

ECONOMICALLY PRICED

Comets® are a cost effective alternative for even the tightest budget. You can get the comfort and protection your workers need, without breaking the bank.

MOLDEX® TECHNICAL ASSISTANCE

Moldex® provides all of the technical assistance required to set up a hearing protection program. For more information call +1 (800) 421-0668 ext. 512/550 or email: sales@moldex.com or visit www.moldex.com.

FEATURES

- 100% PVC-Free.
- NRR 25, CSA BL.
- Hearing protection at your fingertips.
- User friendly finger pocket makes Comets® easy to insert.
- Extra soft material and an air-cushioned tip provide all-day comfort.
- Soft triple flange adjusts to most size ear canals to hold the plug securely in place.
- Available in corded and uncorded models.
- The bright green color is a trademark of Moldex-Metric, Inc. and also provides easy compliance checks.
- Independently tested to ANSI S3.19-1974.

WARNING TO USER

1. Comets® Reusable Earplugs must be fitted and worn correctly to provide effective protection.
2. Reusable earplugs may deteriorate with use and should be examined for cracking or other deformations and replaced as necessary.
3. Wash or clean hands before use. Plugs should be routinely washed with mild soap and warm water.
4. **CAUTION:** Remove with a slow twisting motion to break the seal. Due to the tight seals, rapid removal may damage eardrum.
5. Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn.
6. Failure to follow all instructions could result in hearing loss or injury.
7. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
8. Comets must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.
9. Overprotection can be dangerous. The wearer must be able to hear warning signals.
10. Wearers with hearing loss should exercise extreme caution.
11. It is the employer's responsibility to ensure that the type of hearing protector and its NRR is appropriate for the user in their particular workplace.
12. Use caution when working around machinery or any other equipment to ensure neck cord does not become caught or entangled.
13. Failure to follow these warnings could result in serious injury or death.
